

Petite purse pattern

Finished dimensions

- Approximately 9" (22.5cm) x 7" (18cm)

You will need

- One hb4 omega bamboo handle and one sn9 magnetic snap closure (as shown below)

bamboo handle # hb4

magnetic snap closure # sn9

- Outer fabric: 11" (28cm) OR
- Lining fabric: Size as above
- Interfacing: 2 pieces 1" (2.5cm) x 1" (2.5cm) squares of iron-on interfacing
- Thread to match fabric

Above supplies available from Tall Poppy Craft Products :: www.tallpoppycraft.com

Instructions

Step 1

Cut pattern pieces out and cut fabric as shown on pattern pieces. Transfer notches and markings from pattern pieces onto fabric pieces.

Step 2

Outer: With right sides together, pin the outer bag together and stitch from point A to point B. Repeat for the lining but make sure to leave a hole in the lining as shown on the pattern piece.

Step 3

Take the 2 squares of interfacing and iron one square onto one side of the lining (on the wrong side) and iron the remaining square onto the opposite side of the lining (on the wrong side). They should be ironed over the snap placement marker.

Step 4

Insert the magnetic snap closure.

Note

Please go to our tutorials section at: <http://www.tallpoppycraft.com/catalog/tutorials.php> if you need guidance on how to install our magnetic snap closures.

Step 5

Turn outer bag right side out and press.

Step 6

Fold tabs in half length-wise so that right sides are together. Press. Stitch down the raw edge. Turn right side out. Press.

Step 7

Fold the tabs in a loop so that each of the raw edges are together and pin onto the right side of the outer bag at the tab placement markers. The raw edges should be even with the raw edge of the outer bag, the loop should be pointing down. Stitch tabs down to hold them in place on the outer bag.

Step 8

Insert outer bag into lining (lining should still be inside out). Right sides of the bag and the lining should now be together and the tabs should be sandwiched in between the lining and the outer bag.

Step 9

Pin and stitch the sides and top of each of the flaps. Stitch each of the flaps separately. Stitch down the side from where the seam for the body of the purse ends, and then across the top, then down the side and stop stitching when you get to the stitching for the body of the purse. Repeat for the second flap.

Step 10

Pull bag through the hole in the lining so that the bag is now right side out. Insert the lining back into the bag and push out corners carefully with a pair of scissors. Press.

Step 11

Take the Omega shaped bamboo handles and insert the ends through the tab loops.
